## Obtaining PATCHES or UPGRADES for TED

*The following files can be downloaded or viewed by clicking directly on the file names:*

---

### Win95 Version of ABOB Software

The TED Version 1.40 CD can be loaded onto any PC with either Windows 3.1 or Windows 95. Everything will work the same except for the ABOB software. On Windows 95, you need to obtain the following software and replace it with what was loaded from the CD.

**NOTE: You need to download the first 2 files. Follow the directions provided in the Readme.txt file.**

[ABOBMAIN.EXE](#) is the ABOB program for Windows 95.

[ABOBOLE.EXE](#) is used to OLE register the ABOB program.

[README.TXT](#) provides further info and can be viewed.
